What kind of STEM project manager are you?

Choose the answer that sounds most like you!

1 You're building a giant Lego tower with your friends. What do you want to do first?

- A Draw a plan so we build it right.
- B Count and sort all the blocks by color and size.
- C Build a secret trapdoor or a mini elevator that really works.
- D Time how fast we build it and make sure it doesn't fall over.

2 Your science fair is in two days and your plants still haven't grown! What do you do?

- A Look at our plan and build a backup way to show our project.
- B Check how much money we have left for faster-growing seeds.
- C Look online to see if more light or warmth would help them grow.
- D Stay calm, look at what we do know, and explain why it didn't grow.

3 If you could build something huge for Monterey County, what would it be?

- A A super-safe airport for electric flying taxis in Marina.
- B Figuring out exactly how much water keeps Salinas farms green.
- C An underwater robot that cleans plastic out of Monterey Bay.
- D Testing a new plant food to make sure it's safe for animals and soil.

Find your STEM PM style

Count your letters: A ☐ B ☐ C ☐ D ☐ My style: _____

Mostly A's: The Builder

The Engineering PM. You love making plans, hitting deadlines, and making sure every piece fits together.

Cool local job: building electric flying taxis at Joby Aviation, right here in Marina!

Mostly B's: The Strategist

The Mathematical PM. You love numbers, budgets, and making sure nothing gets wasted.

Cool local job: helping Salinas Valley farms plan out water, crops, and supplies.

Mostly C's: The Innovator

The Technological PM. You love figuring out how things work and jumping on new ideas fast.

Cool local job: coding self-driving tractors or building tech that explores the ocean.

Mostly D's: The Validator

The Scientific PM. You love testing things carefully and catching problems before they happen.

Cool local job: joining ocean research trips with MBARI or protecting our coastline.
